---

## PROFILE SUMMARY

Senior Project Manager with 19+ years of experience delivering banking, fintech, e-commerce, and enterprise applications. Proven track record in managing cross-functional teams, driving Agile transformations, implementing AI-assisted delivery, and modernizing UI architectures.

## CORE COMPETENCIES

- Project & Program Management
- Agile / Scrum Execution
- AI-Assisted Development (ChatGPT, Copilot)
- React / Angular / TypeScript Engineering
- Performance Optimization & Scalability
- CI/CD Pipeline & DevOps Collaboration
- Team Leadership & Mentorship
- Stakeholder & Client Management

## PROFESSIONAL EXPERIENCE

### Sr Technical Program Manager (2023–Present)

Leading end-to-end delivery of multi-platform enterprise applications across finance, healthcare, and e-commerce sectors.

- Led a 20-member team building scalable enterprise platforms using React, Angular, and micro-frontend architecture.
- Introduced AI-assisted coding, documentation, and test automation—boosting delivery speed by 35%.
- Implemented advanced performance profiling, reducing UI load time by 40%.
- Streamlined CI/CD workflows, cutting deployment failures by 60% and improving release stability.
- Partnered with business stakeholders to define product roadmaps, requirements, and release milestones.

### Sr Project Lead – AtosSyntel (2021–2023)

Delivered digital banking and UPI solutions used by millions of customers across India.

- Managed full lifecycle of UPI and payment UI systems serving 10M+ daily users.
- Reduced sprint delivery cycle by 25% through improved planning, backlog grooming, and dependency management.
- Built reusable UI component libraries, reducing development rework by 30%.
- Collaborated with backend, QA, and DevOps teams to deliver secure, scalable financial applications.
- Led accessibility and compliance modernization for legacy payment modules.

### **SCRUM Master & Sr Project Lead – CareComp (2016–2021)**

Handled enterprise healthcare and insurance applications with a strong focus on UX & compliance.

- Managed 15+ concurrent enterprise software projects using Agile Scrum methodology.
- Established a UI/UX Center of Excellence (COE) that increased design-development efficiency by 45%.
- Migrated legacy systems to modern tech stacks, reducing application load time from 6s to 1.8s.
- Implemented workflow automation and documentation standards improving audit readiness.
- Mentored junior engineers, improving productivity and code quality across teams.

### **Earlier Experience (2005–2016)**

Worked with Rolta, CRISIL, Diebold, FSS, eClerx, Nazara, Reliance, Rediff, Aptech across finance, gaming, and enterprise technology domains.

- Delivered UI solutions for analytics dashboards, banking systems, gaming platforms, and enterprise portals.
- Gained deep exposure to full SDLC, client handling, and scalable UI design patterns.

### **EDUCATION**

- MBA (IT & Systems), IIBM Institute
- BE (Instrumentation), Mumbai University
- Advanced Diploma in Software Engineering, Boston Institute

### **CERTIFICATIONS**

- Certified Scrum Master (CSM)

### **TECHNICAL SKILLS**
